MEET A RECURRING COMPLIANCE OBLIGATION

Make obligation-record reviews clear for signer and preparer

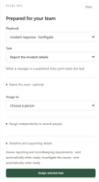

Give the accountable owner a prepared record to sign or return, with the signer identified. A correction request carries the review back to the preparer so they know what needs attention before resubmission.

Prepare the record or filing > Approve and sign > File or post it and attach proof (when triggered)

YOUR TEAM / THE DECISIONS THAT MATTER

The people involved in the working method

Each role has a defined contribution. Your team selects the people responsible for those parts of the work.

Your role	The contribution	SkillSmith support
Designated specialist	Prepare the record or filing; File or post it and attach proof	Respond with proof (photo, receipt, confirmation), supporting evidence, the completed record and where filed or posted.
Accountable owner	Approve and sign	Respond with signed / returned and signer.

Return the record with the requested correction

In a worked example, the record is prepared but the authorized signer requests a correction; retain the review and return the record before signature.

Prepare the method for your team

What stays with the recorded response?

The response for this occurrence retains signed / returned and signer. It belongs to the work being reviewed, rather than replacing a different occurrence's record.

Which materials do we need to bring?

Bring obligation and completion form. We use those choices to prepare the working context, then check that each task opens the material it needs.

How do the conditional steps become part of the method?

The conditional route is used when the obligation requires posting or external filing. Select the variant or respond to the recorded condition before treating that step as required.

What is the outcome for the wider workflow?

Signed record on or before the deadline; filed or posted with proof where the obligation requires it; an internal-only obligation closes on signature.

WHY SKILLSMITH / YOUR NEXT STEP

Bring your work; we help prepare the method

We work with your team to organize the source material, responsibilities and review choices. Start with one useful example, then carry the agreed method into everyday work.

Without connected follow-through	With SkillSmith
A completed entry is mistaken for the responsible person's decision.	Give the accountable owner the recorded response and agreed criteria for this decision.
People cannot see the method or evidence behind a decision.	Make methods, responsibilities and decision evidence visible for review.

Walk through this method with us

Bring one real example and the material your team uses. We will walk through the task sequence and the decision that matters to you.
