HOLD A REGULAR CHECK-IN

Carry check-in blockers to the team that can act

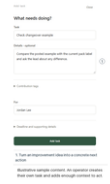

When another team must help with a blocker, connect the check-in to follow-up work with a responsible owner.

Member's check-in > Lead responds and records actions > Act on a blocker (when triggered)

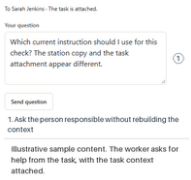

SkillSmith · Bring a practical question into the mentoring conversation

SkillSmith · Turn an improvement idea into a concrete next task

SkillSmith · Ask for help with the task attached

YOUR TEAM / THE DECISIONS THAT MATTER

The people involved in the working method

Each role has a defined contribution. Your team selects the people responsible for those parts of the work.

Your role	The contribution	SkillSmith support
Assigned team member	Member's check-in	Respond with blockers, goal progress, wellbeing 1-5 and what i need.
Team lead	Lead responds and records actions; Act on a blocker	Respond with action done, actions, next date and notes.

Link the blocker to the responsible team

In a worked example, the lead has responded but another team must act; hand the blocker to linked work with responsibility instead of calling the response a resolution.

WORKED DECISION

Decision point	Information to use	Responsible next step
Working material	Check in	Open the selected material for this occurrence.
Recorded response	action done	Save the response with its work context.
Review point	a blocker needs action outside the pair	Agree the next action with the person responsible for this decision.

Review the selected material, this occurrence's response and any conditional follow-up.

CONNECTED WORK / PREPARED PLAYBOOKS

Hold a regular check-in

Bring check in into the prepared work. Assigned team member and Team lead each receive the context needed for their part.

01 Member's check-in

Record what went well, blockers, wellbeing 1-5, goal progress and what I need.

02 Lead responds and records actions

Record notes, actions and next date.

03 Act on a blocker

When a blocker needs action outside the pair, record action done.

Prepare the useful part of the workflow

Use the prepared sequence with the resources and responsibilities selected for your team.

Hold a regular check-in

Every person tells their lead, on a rhythm, what went well, what is blocking them and how they are doing; the lead answers and acts - the smallest unit of 'someone cares'.

Monthly check-in · Assembly

YOUR INFORMATION / CONNECTED WORK

The materials that make this method usable

Keep the relevant material available at the point it is used. The resource choices below support different parts of the work.

Your work context > SkillSmith > Your next contribution

Check in The task uses this material	The check-in form.
Guidance The task uses this material	The check-in guide for leads.
Report template The task uses this material	Team check-in coverage.

YOUR DELIVERY PLAN / OUR TEAM

Prepare the first useful playbook

Start with the materials and people you already have. We help make the setup choices explicit before your team uses the method.

01 Select the working material

Choose check in from the resources your team uses.

02 Agree the responsibilities

Confirm assigned team member and team lead for this method, then choose the people eligible to receive its work.

03 Walk through the selected route

Walk through these conditional steps: “Act on a blocker”.

Prepare the method for your team

What stays with the recorded response?

The response for this occurrence retains action done. It belongs to the work being reviewed, rather than replacing a different occurrence's record.

Which materials do we need to bring?

Bring check in. We use those choices to prepare the working context, then check that each task opens the material it needs.

How do the conditional steps become part of the method?

The conditional route is used when a blocker needs action outside the pair. Select the variant or respond to the recorded condition before treating that step as required.

What is the outcome for the wider workflow?

Lead response recorded; blockers handed off.

WHY SKILLSMITH / YOUR NEXT STEP

Bring your work; we help prepare the method

We work with your team to organize the source material, responsibilities and review choices. Start with one useful example, then carry the agreed method into everyday work.

Without connected follow-through	With SkillSmith
The next person receives an action without the preceding result.	Keep the preceding result attached when the next responsible person receives work.
Known case details are requested again at the next handoff.	Carry known context forward and show the decisions needed for this task.

Walk through this method with us

Bring one real example and the material your team uses. We will walk through the task sequence and the decision that matters to you.
