SHARE A COLLECTION OF RESOURCES

Bring the resources for a piece of work into one collection

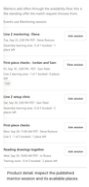

Choose the folder, member resources and audience or collaborators, then check access to the items the collection is meant to provide.

Choose contents > Share published collection > Invite draft collaborators

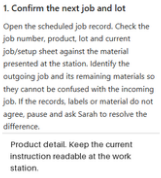

SkillSmith · Publish a useful collection of mentoring resources

SkillSmith · Inspect published mentoring sessions and available places

SkillSmith · Keep the current instruction readable beside the work

Publish a useful collection of mentoring resources

Pay only when you see results

Agree the outcome for your first workflow with our team.

YOUR TEAM / THE DECISIONS THAT MATTER

Who can use this product method

The method keeps the stated role and access scope. Your team confirms the people involved.

Your role	The contribution	SkillSmith support
Resource owner	Choose contents, Share published collection and Invite draft collaborators	Use the method within the permitted scope for the selected information.

Check access to the resources in the collection

In the walkthrough, a child resource has its own permission boundary; check the permitted contents instead of assuming every item is accessible because the folder was shared.

WORKED DECISION

Decision point	Information to use	Responsible next step
Inputs to review	Folder and Member resources	Choose contents.
Method action	Audience or collaborators	Share published collection and Invite draft collaborators.
Result to inspect	Grouped resources and Sharing settings	Inspect the available result within the permitted scope.

Review the selected material, this occurrence's response and any conditional follow-up.

CONNECTED WORK / PREPARED PLAYBOOKS

Share a collection of resources

Start with folder and member resources. The steps below show the actions and information available for this method.

01 Choose contents

Start with folder and member resources. Choose contents.

02 Share published collection

Share published collection with audience or collaborators in view.

03 Invite draft collaborators

Invite draft collaborators. The result includes grouped resources and sharing settings.

Use the supporting product method

Review the available actions and the result within the method's stated scope.

Share a collection of resources

The collection opens the permitted child resources.

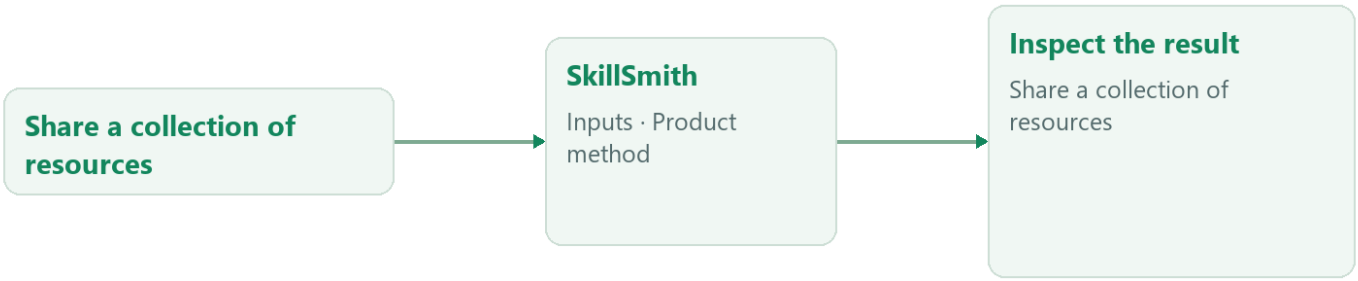

Bring the resources for a piece of work into one collection

YOUR INFORMATION / CONNECTED WORK

The materials that make this method usable

Keep the relevant material available at the point it is used. The resource choices below support different parts of the work.

Your work context > SkillSmith > Your next contribution

YOUR DELIVERY PLAN / OUR TEAM

Set up a useful first example

Start with the materials and people you already have. We help make the setup choices explicit before your team uses the method.

01 Choose the working inputs

Review folder, member resources and audience or collaborators.

02 Agree who will use the method

Confirm the relevant people and their permitted scope: Resource owner.

03 Try the useful actions

Choose contents, Share published collection and Invite draft collaborators.

Prepare the method for your team

What can we inspect after using this method?

The method provides grouped resources and sharing settings. The collection opens the permitted child resources.

Who uses this method?

The permitted roles are Resource owner. Confirm the people and their access for the selected example.

Which choices do we need to make first?

Review folder, member resources and audience or collaborators. Use those choices to prepare the first example and its permitted scope.

Which resources should be available through this shared collection?

A child resource has its own permission boundary; check the permitted contents instead of assuming every item is accessible because the folder was shared.

WHY SKILLSMITH / YOUR NEXT STEP

Bring your work; we help prepare the method

We work with your team to organize the source material, responsibilities and review choices. Start with one useful example, then carry the agreed method into everyday work.

Without connected follow-through	With SkillSmith
A job label or group membership is treated as every kind of access.	Separate reporting scope, playbook availability, published use and collaboration permissions.
Useful working knowledge remains in an unowned draft.	Build, review and reuse resources with owners, versions and collaboration.

Walk through this method with us

Bring one real example and the information needed for this method. We will walk through its actions, result and permitted scope.

- Which resources should be available through this shared collection?
- The inputs and available actions
- The people and permitted scope
- The result to inspect
