YOUR TEAM / THE DECISIONS THAT MATTER

Who can use this product method

The method keeps the stated role and access scope. Your team confirms the people involved.

Your role	The contribution	SkillSmith support
Workspace administrator	Ask question, Inspect evidence and Read known, unknown or conflicting results	Use the method within the permitted scope for the selected information.

Inspect the references behind the conflict

In a worked example, the helper finds conflicting records; retain that conflict and inspect the references instead of treating the generated answer as settled fact.

WORKED DECISION

Decision point	Information to use	Responsible next step
Inputs to review	Question and Sources	Ask question.
Method action	Access scope and Instructions	Inspect evidence and Read known, unknown or conflicting results.
Result to inspect	Answer with references and Helper history	Inspect the available result within the permitted scope.

Review the selected material, this occurrence's response and any conditional follow-up.

CONNECTED WORK / PREPARED PLAYBOOKS

Prepare the method for your team

What can we inspect after using this method?

The method provides answer with references and helper history. The reader can inspect the answer basis.

Who uses this method?

The permitted roles are Workspace administrator. Confirm the people and their access for the selected example.

Which choices do we need to make first?

Review question, sources, access scope and instructions. Use those choices to prepare the first example and its permitted scope.

Which references support the answer, and what is still unknown or contradictory?

The helper finds conflicting records; retain that conflict and inspect the references instead of treating the generated answer as settled fact.

WHY SKILLSMITH / YOUR NEXT STEP

Bring your work; we help prepare the method

We work with your team to organize the source material, responsibilities and review choices. Start with one useful example, then carry the agreed method into everyday work.

Without connected follow-through	With SkillSmith
Available opportunities stay hidden among the existing records.	Ask which mentoring sessions have recorded places available. Inspect the linked capacity and booking records, then check the remaining availability questions before deciding the next action.
An answer is read without the records and unknowns that qualify it.	Read the answer with its cited records, known results and unresolved or conflicting information.
The current status hides which response or version came before it.	Follow work history, resource versions and recorded decisions.

Walk through this method with us

Bring one real example and the information needed for this method. We will walk through its actions, result and permitted scope.

- Which references support the answer, and what is still unknown or contradictory?
- The inputs and available actions
- The people and permitted scope
- The result to inspect
